1999-2006 BMW 3 Series Front Brake Pad Replacement

How to change the front brake pads when they cause your brake pad sensor dash light to display persistently.

Written By: Scott

INTRODUCTION

You'll need pads and rotors if you want to follow the manufacturer recommendation that you change both at the same time.

[video: http://youtu.be/q3spy5jtvXo]

Linked above is a very step by step, easy to follow walkthrough of the process.

TOOLS:

- Socket Wrench (1)
- Anti-Seize Lubricant (1)
- Flathead Screwdriver (1)
- Anti-squeak Compound for Brake pad seats (1)

PARTS:

- Front Brake Pads (2) Sets
- Front Rotor (2)
- Brake Sensor (1)

This video shows disassembly, replacement of parts and reassembly.
